

October 27, 2023

Dear Residents, Families & Staff:

On behalf of Brock Nichols – our new Director of Campus Operations -- I am very pleased to announce the promotions of two of our talented and dedicated employees within the organization!

Jim Hagan is promoted to Facilities Supervisor effective 09/11/2023. Jim joined the organization on 11/11/2013 as a member of our Grounds team and subsequently transitioned to the Facilities department two years ago. Jim has exhibited the important traits needed to be a successful team leader. He is self-motivated, a quick learner, keenly adaptable to working independently and has earned the respect of his fellow Facilities team members. Jim has developed a wonderful and helpful rapport with residents.

Fran Meehan is promoted to Grounds Supervisor effective 09/23/2023. Fran has been an important member of our Grounds team since 09/28/2015 and successfully served in this role on an interim basis. Now it is truly official! During his interim position, Fran displayed great organizational and leadership skills and an ability to manage complex projects effectively and efficiently. His extensive horticulture background will serve us well going forward. Our campus has never looked better, and that is due in part to Fran's keen eye and commitment to its continued beautification.

It's important to note that both Fran and Jim are graduates of the Williamson College of the Trades in Delaware County, PA. Williamson has served, and continues to serve, as a strong source of top-notch employees for Dunwoody Village.

Please join Brock and me in congratulating Jim and Fran on their promotions. We are thrilled to be able to serve as an organization where both of these talented employees can continue to build their careers.

In Memoriam

This past Sunday, October 26, 2023, Dunwoody Village celebrated the lives of those residents who have recently passed and will remain a part of our Dunwoody family. Thank you to Ms. Lynn Mailey and the Memorial Committee for their hard work.

COVID-19

Two Residential and three Care Center residents tested positive and are on quarantine. One employee is positive and at home on isolation.

Best regards,
Maureen Casey
